## YOUR PREGNANCY, OUR JOURNEY

---

My Patients may embark on the pregnancy with particular issues, be they maternal, fetal or both. Others have a straightforward beginning, but may face ensuing hurdles, as the pregnancy unfolds.

Whatever the path, it is a Journey we take together,  
and my Commitment to apply the most robust Science,  
to secure the safest outcomes for Mother and Child.

### The All-Important Early Foundations of Your Pregnancy

These are exciting times in the world of pregnancy care:

We now have the ability to determine the risk status of each pregnancy for significant Obstetric issues, and more importantly, institute preventative measures to impact positively on the outcome of pregnancy.

To that end, I encourage all my ladies to attend early in first trimester, ensuring that timely plans are crafted, thus maximising your chances for a smooth pregnancy journey.
